## "LET US HELP YOU TO HEALTH"

Penny wants every catarrh sufferer to use Hyomei and be cured.

Statistics show that at least 97 out of every 100 persons in this State suffer from catarrh in some form.

While the disease is one of the most common, it is also one of the most dangerous and offensive, leading to consumption and other diseases of the respiratory organs.

Prior to the discovery of Hyomei and its introduction in this section by Mr. Penny, every method of treatment had been found worthless.

The discovery of Hyomei and its growing popularity has already reduced the percentage of those suffering from catarrh. This wonderful remedy is the simplest and most pleasant of treatments. Put 20 drops of Hyomei in the pocket inhaler that comes with every outfit, and breathe it for a few minutes four times a day. Relief will be seen after the first treatment and a complete cure will soon follow. Breathe the Hyomei in this way, and the catarrhal germs even in the most remote air cells are destroyed. The irritated mucous membrane is soothed and healed, and perfect health restored.

Mr. Penny says to all catarrh sufferers "Let me help you to health, I am confident Hyomei will cure, so confident, in fact, that I guarantee to refund your money if it fails. A complete outfit costs but \$1, and if it does not help you, your money will be returned promptly."

THE Central Kentucky Real Estate Exchange & Title Co. has options in almost every county in the State, consisting of town property, farmlands, miles, stocks of goods, etc., also several options on good property out of the State, chief of which is 150,000 acres of cotton land in Mississippi. An investment in lands in Mississippi is sure to realize you enormous profits. Call at our office and examine the list of our property that does not appear in this issue. We are in touch with Louisville, St. Louis and Virginia real estate firms, and property placed in our hands to sell will also be advertised by these firms.

Merrill Woods telegraphed to Washington that he will prove by an autograph letter from Mr. Bryan that he favored Judge Parker on the ticket for vice president in 1900.

## An Open Letter.

From the Chapin, S. C., News: Early in the Spring my wife and I were taken with diarrhoea and so severe were the pains that we called a physician, who prescribed for us, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Coic, Cholera and Diarrhoea Remedy on hand, gave each of us a dose and we at once felt the effects. I procured a bottle and before using the entire contents we were entirely cured. It is a wonderful remedy and should be found in every household. H. C. Bailey, editor. This remedy is for sale by W. JOHN W. YERKES, commissioner of internal revenue, and President Roosevelt's personal representative in Kentucky, whipped into line that portion of the republican party which is opposed to an office-holding machine and completely dominated the republican State convention in Louisville The platform adopted was a fulsome panegyric on President Roosevelt, for whom the delegates were instructed to vote at the National convention in Chicago. Mr. Yerkes was made temporary chairman without opposition, after which W. O. Bradley, R. P. Ernst, George W. Long and E. E. Underwood, colored, were elected delegates-at-large to the National convention. Col. Morris B. Belknap, late republican nominee for governor of Kentucky, was mentioned only once during the convention.

THE vitality of the canvass of William Randolph Hearst is shown in the fact that it does not seem at all affected by the action of New York which apparently instructed for Judge Parker. Several States have since then either instructed for Hearst or sent uninstructed delegations, when it looked like they would have fallen over each other to get into the band wagon after New York's action. The fact is, there is more in the candidacy of Mr. Hearst than many people think or at least will admit. He may not be nominated but he will, in all probability be in position to dictate who will be.

THE republican platform adopted at Louisville is nothing more than servile and fulsome praise of pie bunters for the pie dispenser. Roosevelt is credited with the accomplishment of everything good, including the crops, and is held higher than the deity, who must always be accorded a back seat when the man on horseback gallops to the front. Such flattery and the reason thereof is enough to make a canine cachinnate.

THE papers are saying some mighty nice things about Hon. Harvey Helm, whose chance to represent this district in Congress grow brighter daily. They recognize Mr. Helm's sterling worth and like us, believe that he is the gentleman to nominate. Space forbids a reproduction of all the good editorials written in his favor, but we will print some of them from time to time.

SPEAKER CANNON says that if the republican nomination for vice president were tendered him he would not accept it under any circumstances. The Speaker says he prefers to remain in the House, and will be a candidate for re-election as Speaker if the republicans control.

### POLITICAL.

Hearst forces scored a victory in district caucuses preliminary to the Iowa State convention.

R. P. Ernst, of Covington, was elected chairman of the republican State central committee.

William Henry Jones, of Glasgow, was nominated for Congress by the republicans of the third district.

Delegates to the National convention have decided to elect John W. Yerkes national committeeman from Kentucky.

President Roosevelt has appointed Adolph Grant Wolf to succeed Judge Sulzbacher as associate justice of the supreme court of Porto Rico.

Senator Bailey has sold his stock farm near Lexington and will take his horses to Texas where he will continue breeding on an extensive scale.

The subcommittee of the republican National Committee has decided to recommend that Elihu Root be made temporary chairman of the convention.

President Roosevelt is said to have intimated that if he is unable to get a first class man to run the republican campaign he will take charge himself.

As the result of the explosion of a powder mill near Newport, Ind., four men were killed and two injured, and property was destroyed in the sum of \$7,000.

Angus W. Cannon, Jr., stated at the Smoot investigation that he had perjured himself in testifying that President Smith, of the Mormon church, had performed plural marriages.

Judge Parker is not the only candidate who has kept his mouth shut on political issues. In 1896 McKinley remained silent on the silver question until he wrote his letter of acceptance.

### CHURCH MATTERS.

Services at Baptist church Sunday morning and evening as usual. Morning subject, "A Happy People." Services begin at 11 o'clock. Evening subject "What Dost Hinder Thee." Services begin at 7:30 o'clock.

Rev. O. M. Huey contributes the following: I closed a delightful meeting at Hazard (county seat of Perry county and 40 miles from Jackson, from which place I had to ride horseback) with 25 additions. The meeting only continued seven days. This is the greatest mission field I was ever in. It is the seat of the French-Eversole feud of several years. While there they had one examining trial for murder, and now have a comparatively quiet country. No whisky is legally sold and the "moonshine" business is about broken up. We have a new Baptist school building just about finished, costing about \$5,000. School is conducted by Rev. A. S. Petry, who heretofore used such buildings as he could secure and had 200 in attendance during last term. He hopes to open in the fall under more favorable conditions and with about 300 students. The young men and ladies are a fine class of students. They sacrifice and study and are determined to make something of themselves. Hazard is in the midst of a population of 70,000 that is almost without religious privileges. It was a pleasure to labor among them and I give God the praise for the wonderful blessings we enjoyed. Hazard is on a boom. All mineral lands are being bought and they are looking for a railroad and then Jackson had better look out.

I presented her with a bottle of Chamberlain's Pain Balm; after a few applications she said it was the most wonderful pain relief she had ever tried, in fact she is never without it now and is at all times able to walk. The residence of John Heironimus, near Floyd's Switch, Pulaski county, burned, together with contents. Loss about \$2,000, with no insurance. The origin of the fire is not known.

A Washington dispatch says: A fraud order has been issued by the postoffice department against Shoemaker & Company and R. L. Litsey, of Harrodsburg. It is charged that the company which, the inspectors say, consisted of only Litsey, advertised to sell breeding and pedigree cattle, hogs and poultry, and after getting big money, pleaded delay from one cause or another, and then sent cheap stock.

# LIVER TROUBLES

"I find Thedford's Black-Draught a good medicine for liver disease. It cured my son after he had spent \$100 with doctors. It is all the medicine I take." —MRS. CAROLINE MARTIN, Parkersburg, W. Va.

If your liver does not act regularly go to your druggist and secure a package of Thedford's Black-Draught and take a dose tonight. This great family medicine frees the constipated bowels, stirs up the torpid liver and causes a healthy secretion of bile.

Thedford's Black-Draught will cleanse the bowels of impurities and strengthen the kidneys. A torpid liver invites colds, biliousness, chills and fever and all manner of sickness and contagion. Weak kidneys result in Bright's disease which claims as many victims as consumption. A 25-cent package of Thedford's Black-Draught should always be kept in the house.

"I used Thedford's Black-Draught for liver and kidney complaints and found nothing to excel it." —WILLIAM COFFMAN, Marblehead, Ill.

## Kentucky State Summer School For Teachers.

We are glad to announce that the authorities of the State College have provided for a summer school for teachers to be conducted in the buildings of that institution at Lexington from June 6th to July 15th, 1904. Prof. Milford White of the Normal Department of the State College will be in charge as director and will have associated with him a number of the ablest and most popular instructors in the College. The sole purpose of this school is to prepare teachers for more efficient service in public schools of all grades whether in the rural district, in the town, or in the city. The true value of the teacher depends almost entirely upon three things: namely, the moral influence he exerts in the community, his knowledge of the branches to be taught and his skill in imparting knowledge to others. At the summer school the most elevating influences will be placed around those who attend, a thorough review of all subjects included in the State examinations will be offered, and a strong course in the Science and Art of Teaching will be given.

In their efforts to reduce the cost of attendance to the lowest possible basis without diminishing either the comforts or the advantages of those who attend, the authorities of the College offer rooms absolutely free of rent to all students of either sex. Other expenses will be as low as is consistent with comfortable living and first class instruction. The increase of 20 per cent. in the salaries of teachers made by the General Assembly at its last session should encourage them to prepare for teaching as a profession instead of using it as a stepping stone to something else. We hope that many of our teachers will take advantage of the opportunities offered at the summer school this year.

Good SPIRITS—Good spirits don't all come from Kentucky. Their main source is the liver—and all the fine spirits ever made in the Blue Grass State could not remedy a bad liver or the hundred-and-one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over 35 years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all druggists.

An official report of the sinking of the Japanese transport, the Kinshu Maru, on the night of April 26 has been received at St. Petersburg from Rear Admiral Yeszen. The report says the Russians captured 17 Japanese officers, 20 soldiers, 85 coolies and 65 of the crew. The others refused to surrender and went to the bottom with the ship.

Quick Arrest.

J. A. Gullidge, of Verbena, Ala., was twice in the hospital from a severe case of piles, causing 24 tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at G. L. Penny's, druggist.

At Huntsville, Ala., Fleming Froman cut his wife's throat, killing her, and committed suicide.

Flour and Grist Mill, Anderson county, Ky., 32 barrel capacity, covered with iron, built 8 months ago. Steam and water power, the latter 8 months of the year. It is an up-to-date roller mill, with bins for corn and meal bolt. The engine is 7 years old; 14 horses with the mill, including what is with the house. All for \$6,250, or \$5,500 for the mill and 14 acres. One half cash. Fine trade. No mill in 10 miles.

Central Kentucky Real Estate & Title Co., Stanford, Ky.

No. 76-60 acres of land near Junction City, cut in seven fields, 25 acres in cultivation, rest in grass, a nice young orchard and one of the best grape barns in Kentucky. The vineyard sold 2,000 pounds of grapes last year. Well watered and fenced. Good soil and good drainage. A two-story, six room frame dwelling, good barn, crib, etc., all in good repair. Price \$5,250.

325 acres in Allen county, Ky., on railroad and pike, about 50 acres cultivated, about 125 in timber and grass, and about 150 in grass. Timber on place is cut to 18 inches, ties and cord wood enough to pay for the place twice over. A large part is fenced. There are four dwellings of rough stone and one story of twostories with rooms above, has wells and springs of water. Is in 2 miles of county seat and grows tobacco, corn, wheat, grass, etc., for \$2,200. One-half cash.

No. 75, 150,000 acres of cotton land in Mississippi. There is no section of country which offers so many opportunities for profitable investment as the Mississippi Delta which is now fully described as "Prosperity Valley." The timber is becoming more valuable every year for the reason that the timber people from the North (where the supply of timber is fast diminishing) are constantly increasing their purchases of timber lands in the South. When the timber is removed the land is unsuitable for agricultural purposes. It will probably be out of cultivation for a long time.
